

Have you ever thought of **NEW** ways to play an old game?

One idea might be to divide into teams to play **Blanket Volleyball**.

- Divide each side into teams of four, and put one player at each corner of the blanket.
- Give the volleyball to one team and have them place in the middle of the blanket.
- The team must use the blanket to get the ball over the net to the other team (have you ever used a parachute to toss a ball in the air? It's the same idea).
- The other team must use their blanket to catch the ball and toss back over the net.

*And be sure to have fun!!*
