

whitney's "A New Leaf" Project

whitney and Samantha were taking a nice, long nature walk one day when they stumbled upon a pile of leaves.

Samantha immediately started to kick the leaves everywhere when whitney stopped her. "Haven't you ever thought of making something out of the leaves that you find?"

whitney then proceeded to pick up some of the leaves and put them in her hair. Samantha thought that they looked pretty there. whitney then said "if you were to glue these to a headband, or to some barrettes, they would look very nice as a fall accessory." Samantha hadn't even thought of that! whitney then added "You can also use the leaves as a pattern for fabric, just trace around the leaf and cut it out. Then you can use the fabric leaves to decorate all kinds of things!"

Samantha was amazed by whitney's ability to find uses for just about anything. She was also very happy that whitney was her friend.
